To Our Valued Partners in Innovation

The first quarter of 2025 has been dynamic and rewarding, with global expansion empowering businesses to thrive in the evolving tech ecosystem. From major events to product breakthroughs and meaningful partnerships, it was all about building momentum.

It was a transformational period, merging the bustling energy of global tech conferences into strategic client engagements across the U.S. Through all this, we stayed true to our mission of equipping organizations with smarter, scalable, AI-powered tools that shape the future.

This newsletter highlights key moments from a quarter of bold breakthroughs, showcasing how we continue to empower businesses and shape the future of digital transformation.

In the Hustle: Where Innovation Met Impact

As we continue to strengthen our global presence, we have participated in significant industry events, launched forward-thinking solutions, and contributed to impactful projects that are driving digital transformation and business success.

LEAP 2025 – Riyadh, Saudi Arabia

With over 170,000 attendees and 1,800 global brands, LEAP 2025 was a major platform for shaping tomorrow's enterprise tech. Our AI automation suite was at the centre. From hands-on demos to roundtable discussions with industry leaders, we spotlighted how intelligent process orchestration can drive agility and resilience.

Key Takeaways

- **AI at the Forefront:** Saudi Arabia's \$14.9B AI investment announcement showed their serious commitment to digital transformation, and we're ready to help lead that change.
- **Smarter, Faster Operations:** Merging AI with low-code systems emerged as the top strategy for scalable, secure operations.
- **Cybersecurity as Core:** With cloud adoption surging, robust AI-powered threat detection emerged as non-negotiable.

Participating Our Role Towards Fulfilling Vision - 2030

Saudi Arabia's Vision 2030 roadmap calls for digital transformation at scale. Our AI automation solutions are perfectly aligned to accelerate this journey by optimizing supply chains, securing data, and unlocking new efficiencies. We're eager to partner with regional enterprises to turn this future vision into reality.

BETT Global 2025: London, UK

At ExCeL London, over 35,000+ educators, innovators, and policymakers explored EdTech's cutting-edge solutions at Bett UK 2025 summit. We participated in dynamic panel sessions on AI-powered learning platforms and showcased our own AR/VR prototypes designed to deepen engagement in remote classrooms.

Key Highlights

- **Smarter Learning Journeys:** From adaptive tutoring to gamified assessments, our tools are reshaping education from the ground up.
- **Virtual Made Real:** Our AR/VR demos revealed how digital field trips and labs make learning truly borderless.
- **Global Connections:** Productive meetings with educators and district leaders laid the groundwork for pilot projects launching next quarter.

Being at Bett reinforced one truth that is education's future is both digital and deeply human, and we're thrilled to help lead the way.

Strengthening U.S. Partnerships: Deepening Strategic Engagements

Our recent visit to the United States reinforced relationships with existing clients and uncovered new avenues for collaboration. Face-to-face engagements provided invaluable insights into evolving business needs, enabling us to tailor our AI and automation solutions for greater alignment and impact.

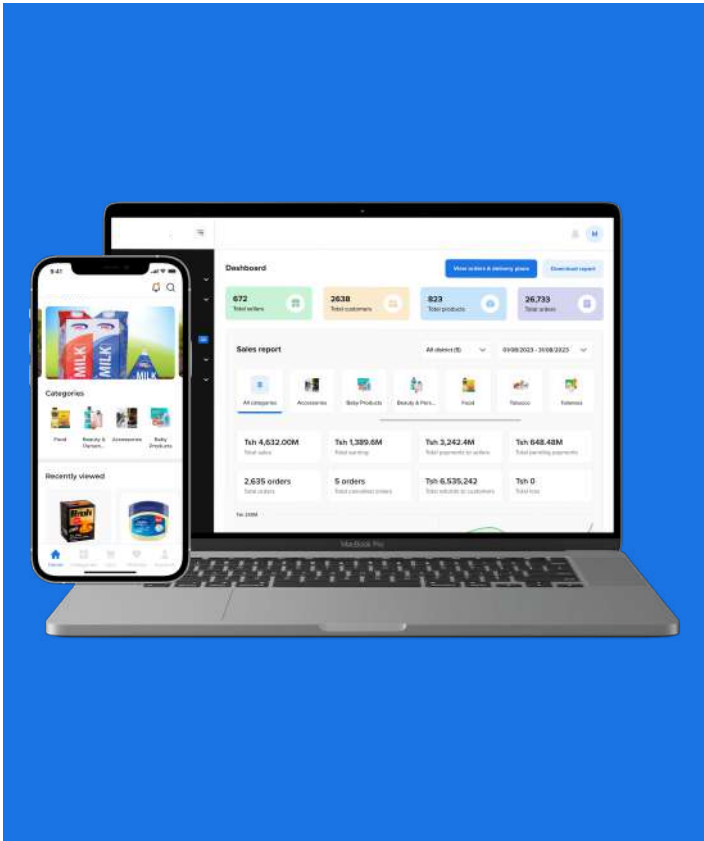

These revitalized connections have expanded our U.S. footprint and catalyzed a new chapter of strategic growth. What comes next is the transformation of insights into action: translating real-time client feedback into smarter, more intuitive tools that drive meaningful outcomes, deepen engagement, and elevate the value we deliver across every partnership

Tech That Matters: AI ExamTracker

Built for advanced education, AI ExamTracker is our milestone achievement of an innovative product development journey. Designed to streamline exam management, this solution integrates AI-based invigilation, automated scheduling, and adaptive analytics, offering scalable, intelligent assessment tools tailored for the evolving education sector. It is already attracting strong early interest from education leaders who want smarter, faster ways to assess performance with automated evaluation systems

Stories Of Transformation: Real Results, Real Impact

Our portfolio commits to delivering innovative, high-quality solutions that adapt to the ever-evolving digital demands.

eCommerce Reimagined

Our partnership with an online retailer fostered a next-generation eCommerce platform that empowers businesses and consumers alike:

Unified Multi-Asset & Multi-Market Engine:

Seamlessly trade in multiple commodities and perform every task from a single, white-labeled interface.

Anywhere, Anytime Access: Whether on desktop, web, or mobile, Utrade keeps customers connected to the market storefront, ensuring no opportunity slips through the cracks.

Intelligent Automation: Built-in, advanced algorithms drive features like backtesting, basket orders, and synthetic order types, streamlining operations and reducing manual errors.

These innovations combined redefine B2C commerce, setting new benchmarks for speed, reliability, and customer engagement.

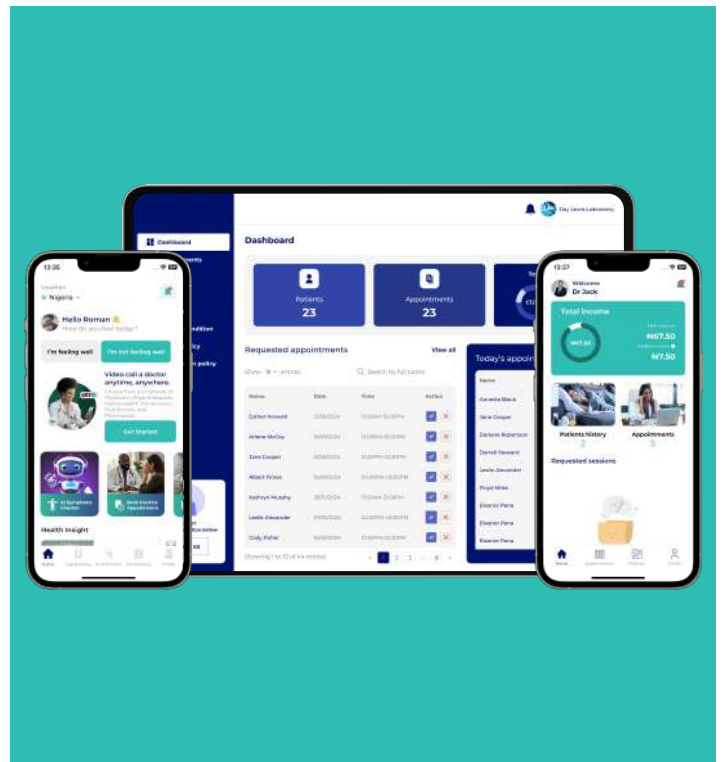

Healthcare, Redefined

Our prowess in crafting robust, user-first digital platforms for the healthcare sector showcased:

Scalable & Secure by Design: Architected to expand effortlessly with growth while safeguarding sensitive health data under the strictest compliance standards.

Intuitive User Experience: A clean, guided interface ensures that patients and providers can navigate complex workflows like appointment booking or teleconsultation with much ease.

Seamless System Integration: From EMR connectivity to third-party lab services, its modular architecture delivers a unified, disruption-free experience.

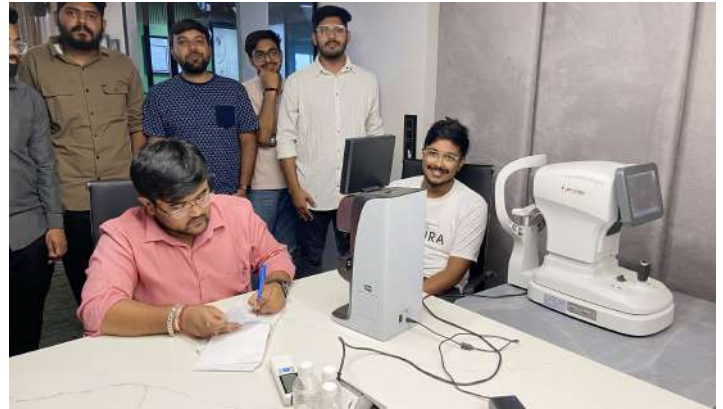

Beyond the Desk: Celebrating People, Prioritizing Health

At the core of our company ethos lies a deep appreciation for both professional achievements and personal health. This fiscal segment truly encapsulates our deep values.

Achievers Series: Celebrating Excellence

This March, we rolled out the red carpet for our quarterly Awards and Recognition ceremony, spotlighting the incredible talent that drives our success. From standout innovators to everyday heroes, we celebrated those who go above and beyond. This edition also celebrated the debut of a brand-new accolade, making it a testament to our ever-evolving spirit of excellence and forward-thinking.

Clear Vision for a Brighter Tomorrow

To honour World Health Day and its theme of “Healthy beginnings, hopeful futures,” we brought wellness right to the workplace. Partnering with our trusted eyecare specialist, we hosted an on-site eye check-up camp; a small step with a big impact. Making it a part of our ongoing commitment to employee wellbeing, since healthy teams lead to stronger futures.

Looking Ahead: Focused, Forward, Future-Ready!

The road ahead is clear as we double down on AI innovation, client collaboration, and digital transformation.

As we move forward, our focus remains steadfast on delivering intelligent, scalable, and transformative solutions to help businesses operate more efficiently, serve their customers better, and lead in their industries. Whether it's redefining how people learn, shop, or receive care, our goal remains the same: deliver intelligent, scalable solutions that help businesses lead in a digital-first world.
